

Suffering from Tonsillitis Ben has recently been receiving treatment.

Ben's NHS Experience

"Hello thanks for your call your appointment is booked for 2pm".

Ben's been having a bad throat so he's been to see his GP, Doctor James.

Doctor James sends Ben's dad to get some lozengers from the Pharmacy.

Even with plenty of rest and lots of water Ben isn't getting better.

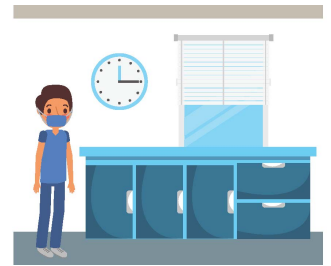

The secretary drafts a letter to tell Ben about his hospital appointment.

The day of Ben's appointment! Welcome to the hospital.

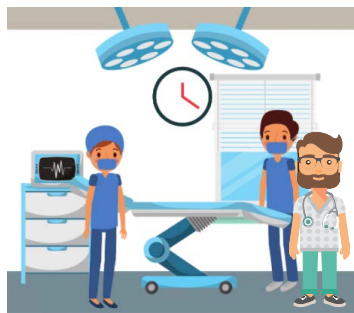

Ben's had his throat examined by the ENT Consultant and needs an Operation.

The Health Care Support Worker meets Ben and gets him settled in.

The Porter now escorts Ben from the ward down to the theatre.

The ODP has set-up, the Anaesthetist and Surgeon & team are ready.

Ben's Op went well and he's now back on the ward being cared for by nurse Sarah.

Hospital chef James speaks to Ben about what he can eat - Jelly and Ice Cream?

Ben's recovering well and is receiving a check-up from the junior doctor before he can go home.

Ben is now back to normal, feeling great and thankful for the care he received - he's even considering a career in the NHS!
